

Multiplying by 3

Discover

Observe and complete.

Dima buys 3 packages of 6 buns each.

How many buns does she buy?

Dima buys:

- $6 + 6 + 6 = \underline{\hspace{2cm}}$
- $\underline{\hspace{2cm}}$ buns

or

- $3 \times 6 = \underline{\hspace{2cm}}$
- $\underline{\hspace{2cm}}$ buns

Know how to do

1. Write in the form of multiplication then give the product.

$$2 + 2 + 2 = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$$

$$4 + 4 + 4 = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$$

$$5 + 5 + 5 = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$$

$$6 + 6 + 6 = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$$

$$9 + 9 + 9 = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$$

$$1 + 1 + 1 = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$$

$$3 + 3 + 3 = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$$

$$7 + 7 + 7 = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$$

$$8 + 8 + 8 = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$$

$$10 + 10 + 10 = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$$

2. Calculate and match each product to the corresponding number.

$$5 \times 3 \quad 9 \times 3 \quad 6 \times 3 \quad 2 \times 3 \quad 7 \times 3 \quad 8 \times 3 \quad 4 \times 3$$

○	○	○	○	○	○	○
